

Conference Speakerphone

SM-800

Expandable Wired Conference Speakerphone

**Add units,
cover the whole room.**

6 m

Pickup range
(3 m radius)

360°

4-microphone array

6

Units can be
chained together

22 kHz

Mic and speaker
frequency range

SM-800 is a wired conference speakerphone with a 4-microphone 360° array and HD audio. Connect up to 6 units over RJ-45 LINK ports to extend coverage as the room gets bigger, while a single USB Type-C cable connects it to the computer.

1

360° Voice Pickup

A 4-microphone omnidirectional array covers the entire meeting space, with a pickup range of 6 meters (3 m radius) per unit.

2

HD Audio, Full-Range Speaker

100 Hz–22 kHz microphone and speaker frequency range for clear, natural speech.

3

Expandable up to 6 Devices

RJ-45 LINK In / Out ports let you chain up to 6 devices to cover larger rooms.

4

Advanced Audio Processing

Echo cancellation, noise suppression and gain control keep conversations clear.

5

USB Plug and Play

1 × USB 3.0 Type-C port (2.0 compatible), UAC 1.0, for Windows 7 and later and macOS 10.10 and later.

6

Slim and Compact

150 × 150 × 36 mm and 0.8 kg, easy to place on a meeting table.
